

HW week 4

Due on wednesday 26 September 2007

Read the paragraph. Then follow the directions below.

My wife and I don't have much time to shop for food because we both work. Sometimes our refrigerator is almost empty. Right now we have a half a quart of milk in the refrigerator. I think I had better buy some more milk today. We also have some spaghetti left over from last night's dinner. We can reheat the spaghetti for dinner tonight. There is also some bread and cheese. I think I will have a cheese sandwich for lunch. There is a can of apple juice that my daughter can take with her school lunch, and there are also two containers of yogurt. We definitely need to buy some more food!
